Dear Author,

Paper ID :: 225

Paper Title :: Archive based Squirrel Search Algorithm: Application to Gene Identification Problem

Congratulations! On behalf of the Program Committee of 4th International Conference on Innovations in Data Analytics (ICIDA 2025) which will be conducted in Kolkata, India ( Hybrid Mode), we are happy to inform you that your above-mentioned paper has been ACCEPTED for oral presentation in ICIDA 2025 and publication in Springer LNNS series subject to fulfilment of Guidelines by Springer. An accepted and presented paper will be published in the Springer proceedings (LNNS) only if the final version is accompanied by the payment information (i.e transaction reference number/receipt) and subject to quality check as per Springer Guidelines.

Complete the Payment within 07.10.2025.

Kindly follow the below mentioned guidelines (strictly), related to preparation of final manuscript, copyright transfer form, payment and final submission. The procedure has been detailed as a five-step process (I)-(V):

(I) Preparation of CRC (Final Manuscript for Inclusion in Springer Proceedings Book-LNNS Series), You are requested to give a strict attention to the below mentioned points during preparation of final manuscript to avoid any last minute revert backs from the publisher (Springer).

(a) Please format your paper on the Springer template downloading from our conference website:  
<http://icida.ikrf.in/downloads.php>

(b) Authors should not mention designation etc. in the name and affiliation part below the paper title. You are requested to mention only the name, college/organization name, city name and mail ids of all the authors. However, they may mention acknowledgement if necessary (at the end of the paper-prior to references). Kindly mention the full name of your institution and city name.

(c) Authors should not give any photo and biography at the end of the paper.

(d) Please address the comments raised by the reviewer(s) which are available in CMT as far as practicable. The responsibility lies with the author to incorporate these comments in preparation of your final Camera-Ready Copy (CRC) for submission. However, it is worth noting that your paper will not be reviewed again and the submitted CRC (after payment) will be directed to Springer for publication.

(e) In case there is any content matching issue which is communicated to you by review comments, kindly see that you rewrite the paper to avoid any plagiarism issue in future.

(f) The sole responsibility for correctness of paper lies with the Author(s) and on such grounds even the paper may be dropped at a later stage.

(g) It is mandatory that the submitted manuscript is solely from the authors' own work and not from the work of others (unless explicit permission for the same has been granted). This includes text, figures and tables. Information from published articles must always be cited explicitly. Proper citation is to give the credit to the work that is originally published (not to follow-up work or reviews).

(h) Citations should be given close to the information within the sentences or at the end of the sentence, not after several sentences or near the end of the paragraph. Even when citations are given, exact copying of a whole sentence or paragraphs should be indicated by quotation marks.

Furthermore, reuse of part of a published figure or table requires a copyright permission from the

publishers that hold the rights. All re- published figures and tables should explicitly indicate the original source.

(i) You have to doubly ensure the format of the reference section as well as the mode of citations. All references which are cited must be complete in terms of details like: Year of publication, Vol No, Issue No, pages, name of conference/journal etc. wherever required. [Refer detailed guidelines given in template itself] All references listed in the end (under reference section) must be cited in the body of the text.

(j) Prepare your CRC (manuscript) using Springer template without containing any page numbers or any special headers or footers. From the final CRC, authors should generate the electronic version of CRC in PDF format as well.

(k) You can add or delete the authors name in your final paper. Once sent no further alteration will be possible.

(l) By submitting the final paper, it is understood that all co-authors have agreed for submission of the paper.

#### (II) Completion/Filling of Publishing Agreement Form

(a) Please refer to the Publishing Agreement form available in the conference web site: <http://icida.ikrf.in/downloads.php>

(b) In the Publishing Agreement form, any one author (on the behalf of all the authors), i.e. the corresponding author should put her/his sign on the form and mention the date. (You can also use the facility of e-signature available in PDF).

#### (III) Author(s) Registration

(a) Each paper must be registered for the inclusion of the paper in Springer LNNS series.

(b) At least any one of the authors needs to register.

(c) We will encourage authors to present the papers online. You will receive the video conferencing ID form the Organizing committee. You will also receive e-certificate as presenter of your manuscript over mail after the conference.
