Dear Authors,

We are pleased to inform you that your chapter titled "Integrating MEMS Sensors with Artificial Intelligence for Smart Healthcare Monitoring: A Comprehensive Study" has been **accepted for publication** in the book "*Next-Generation High-Speed Electronics and Optoelectronics: Vol – 3*".

However, we sincerely regret the delay in conveying this decision, which was due to the extended time required to obtain the final approval of this volume from Springer. Consequently, the editorial process has been delayed.

Your initially submitted chapter was already formatted in the Springer Book Chapter Template. At this stage, we kindly request you to carry out a **final thorough check** of the manuscript, particularly with respect to:

- Spelling and grammar
- Abbreviations and consistency
- Presence of any **non-standard phrasing** (if identified, please revise or remove)
- Referencing style and formatting
- Strictly prepare the final chapter (send us the source files Word/Latex along with a PDF version) in attached **Springer Book Chapter Template**

You are requested to **resubmit the final revised version** of your chapter on or before **5th April, 2026**.

The copyright submission form will be provided to you in due course.

We appreciate your cooperation and patience throughout this process.

Thanking you.

Regards,

Dr. Aritra Acharyya, PhD, MTech, BE, MIEEE, AMIE,

Assistant Professor (WBGs),

Department of Electronics and Communication Engineering,

Kalyani Government Engineering College,
Kalyani, West Bengal, India
